- 2 master CDs, with headshot and details on the label
- Tracks uploaded for you to your Casting Call Pro or Spotlight profile if desired

Hourly Voiceover Recording Rates – *including re-edits of existing material*

If you need your existing reel re-editing, or a few pieces adding to what you have, we charge a flat hourly rate of **£50** an hour (for recording and/or editing/mixing). We believe this is one of the best deals any studio can offer. If the job requires more than the odd couple of hours, we are happy to negotiate rates that take that into account.

Spotlight Clips special service

As an exclusive offer to Spotlight members, SonicPond provides a special service for providing you with 2 minutes of material to include on your Spotlight online profile (usually 4 x 30 second pieces or similar). **For £145 all in**, we will give you two hours recording time, all the advice in advance on choosing pieces you might need, all the editing and mixing required, and finally upload the material straight to Spotlight in the best possible quality and format. We will also upload material to Casting Call Pro for no extra charge if desired.

Student Rates

We are always keen to help students and recent graduates get started in their careers, and will always try to sort out a special deal for you, no matter what your needs. Just call or email to find out details of our latest offers.

Websites

We have a special one page fixed website for hosting voicereels (**£60**) or video showreels (**£75**). These can be combined onto a single webpage to feature both for only **£95**. Includes headshots and biog, if needed.
