Hourly Voiceover Recording Rates – *including re-edits of existing material, or editing coaching sessions on Zoom*

If you need your existing reel re-editing, or a few pieces adding to what you have, we charge a flat hourly rate of **£65** an hour (for recording and/or editing/mixing). We believe this is one of the best deals any studio can offer. If the job requires more than the odd couple of hours, we are happy to negotiate rates that take that into account.

We also now offer Zoom sessions to coach recording techniques, or editing techniques, for those getting to grips with new home recording setups.

* Remote Reels

These sessions run for the same length as our in person sessions, include all the same details, consultation and costs, but have additional time allocated to helping with the technical side of having a home setup if needed, including a zoom chat if required. In all other respects they are as near identical to coming in to the studio as we can make them.

Student Rates

We are always keen to help students and recent graduates get started in their careers, and will always try to sort out a special deal for you, no matter what your needs. Just call or email to find out details of our latest offers.

Websites

We have a special one page fixed website for hosting voicereels (**£60**) or video showreels (**£75**). These can be combined onto a single webpage to feature both for only **£95**. Includes headshots and biog, if needed.
